
Metric 4 -- leader hand-off timing across 30 seeds (n=20)
each dot = one real hand-off event in one run; each row = one seed
plain_seed123 (unclamped) -- real hand-offs per run: median=28, range [18, 40]
plain_seed123 (clamped, hardware-safe) -- real hand-offs per run: median=14, range [4, 27]
LJ baseline (Table 3, rule-based) -- real hand-offs per run: median=8, range [3, 15]
